LVIV
OPEN TO THE WORLD

The Carpathian Region has been known as an oil&gas production site for over 150 years. This region is famous for origination of oil&gas production traditions set by dynasties of oil-riggers and petroleum industrialists. Nowadays Lviv preserves authenticity of the old times, and bridges the later with challenges of contemporary business world. The city hosts representative offices of several oil&gas production, service and trading companies, over 200 hotels, modern railway station and airport, thus making it a place of easy commuting from Kyiv and neighboring countries.

**WE LOOK FORWARD TO
SEEING YOUR IN LVIV!**
